Hi,
John and I are sitting here wondering what the h--- is going on up there???? We have not been up to the house except to repair the broken water pipes in the ceiling and meet with the Dish Network repair man. We will be there for sure for the meeting on July 6th at 3pm at the Ranch House. You should have called me for our signature on the petition. After all the hard work everyone put in, and the materials and etc. etc. this thing of closing the Ranch House and selling water rights is so out of sight, I can't believe it. As you know we owned a restaurant here in Phoenix, and started it from scratch and it took a couple of years to get it going. We had to cut some corners, like menu items, had to have specials, senior pricing and so forth. I shopped around for food suppliers and US Foods seemed to be the best along with Concord, however, Concord no longer services Az. (too far to travel)
Let me know what is going on....How can two women just take over the BCCDC and the Ranch House Coalition. What happened to all the people that were behind this project??? Lee Weller, Richard Casmier, Ruthann, Dave Niehuis and so on??? I did not see their names on the petition, or did I miss it???
There seems to me that there is a click wanting to run everything with no regards to anything or anyone. I know mistakes were made, we all make them, but life goes on.

Live, Love, Laugh
John and Carol Pomozzi
